

BAYRAIDER EXHIBITION FOR SALE

PRICE €33,000 EURO (approx. £28,000 Sterling)

EU VAT PAID

LOCATION WEXFORD IRELAND

An opportunity exists to acquire a beautiful Bayraider Exhibition, sail number 102. This boat was built in 2021. It is in excellent condition throughout. Almost every optional extra was included at the time of ordering, also many additional items and features were added to the boat since it was delivered new in June 2021. The boat is named "Ciara Emily" after my daughter and granddaughter. It has been very well looked after since I bought it new, however I didn't manage to sail it as much as I would have liked. This was mainly due to age related health issues which is not overly surprising for a 76 year old. For this reason, I have now very reluctantly decided to sell my beautiful boat to somebody who is physically more able to enjoy it fully. The boat is currently winterised at my home in Wexford town in Ireland where it can be viewed by prior arrangement.

The Bayraider Exhibition sailing yachts are a pleasing blend of modern technology and traditional looks. They are designed and built to a very high standard in the UK by the pioneering yacht manufacturer Swallow Yachts. The superior hull design, the modern carbon fibre masts, the Bermudan yawl rig, the NACA centreboard and rudder foils on this craft ensures enhanced performance on the water. While sailing performance is very important the designer (Matt Newland) also managed to retain the boats traditional classic lines, which certainly adds to the boats charm and appeal. In the cabin there are comfortable cushions with sufficient room for two tall adults to stretch out, and with the addition of an optional cockpit tent, you could sleep up to four adults. The unique design of the water ballasted system on this boat helps to ensure its excellent stability and sea keeping qualities on the water. Also having the ability to remove the water ballast while on the water is a great advantage. In a recent review by Practical Boat Magazine the boat was described as follows;

"Unballasted she is a lively performer, rewarding and exciting to sail, and is capable of planing off the wind. Filling the ballast tank the Bayraider Expedition is at once more docile and very seaworthy, instilling confidence in all who sail her."

The ability to remove the water ballast on this boat also ensures ease of handling when taking the boat in and out of the water and while towing her on the road. More information on this type of boat can be found using the following links;

GENERAL SPECIFICATIONS;

Builder	Swallow Yachts UK
Model	Bayraider Exhibition
Year of manufacture	2021
Recreational Craft Category	CE certification for category C
Total Sail Area	30.7 m2 (inc. asymmetric)
Rig Type	Bermudan Yawl
Sail Number	102
Number of Sails	4
Number of masts	2
Number of reef points	2
Mast Material	Carbon Fibre
Boom Material	Solid Douglas Fir
Hull Colour	Ral 5018 (Turquoise Blue)
Canvas Colours	Beige
Cabin Cushion Colours	Peacock
Asymmetric Colour	Plain Light Blue
Hull Material	Solid Laminate GRP
Centreboard	High Aspect Ratio Ballasted (NACA)
Rudder	High Aspect Ratio (NACA)
Tiller Material	Laminated Douglas Fir / Utile
Anchor	Fortress FX-7
Boat weight when empty (no engine)	520 kgs
Empty boat weight including trailer	750 kgs
Weight of water ballast	300 kgs
Air Draft	7.93 metres
Ballast Ratio	40%
Overall Length	6.05 metres
Beam	2.05 metres
Draft (board up)	0.25 metres
Draft (board down)	1.41 metres
Number of engines	1
Engine Model	Yamaha Outboard
Fuel Type	Petrol
Engine Power	6 hp
Fuel tank capacity	12 litres
Maximum Trailer Load	1400 kgs

Many extras were added to the basic boat when it was originally ordered from Swallow Yachts on the 18th September 2020 and then some more were added after it was finally delivered in June 2021.

(see list of extras in the table below)

ADDED EXTRAS;

1	Rubbing Strip
2	Copper antifouling
3	Full cover (mast down)
4	Cockpit cover (mast up)
5	Flexiteek Seating
6	Boat name markings
7	Asymmetric
8	Main Stack Pack Boom Bag
9	Tiller Extension
10	Tiller clutch
11	Compass
12	Cassette Boom Gooseneck
13	Spray Hood
14	Canvas Bags in Cabin and Cockpit
15	Cabin Cushions
16	Ply Headliner Panels in Cabin
17	S/S Boarding Ladder
18	2 Colour Paint Scheme to Hull
19	UV Strip on Jib and Mizzen
20	Electrical Circuit Breaker Panel, c/w fuse block and 2 x 12 volt sockets
21	Raymarine i40 Depth System
22	24 Amp Hour Gel Type Battery
23	NASA BMI Battery Monitor
24	NASA 20 Watt Solar Panel
25	Epever 10 Amp MPPT Solar Charge Controller, Tracer 1210 AN
26	Garmin Echomap UHD 60 Chart Plotter
27	12v Rule RU2000 Automatic Bilge Pump (7600 litres per hour)
28	CHL Swing Bunk Type Trailer, c/w lighting board, spare wheel and hitch lock
29	Full set of boat tie down straps
30	Anchoring System with Fortress FX-7 Anchor, c/w chain and 50 metre warp
31	Windex 10C - Mast Head Wind Direction Indicator
32	Buoyant folding cockpit cushions
33	Additional companionway hatches (teak)
34	Portable 12v submersible pump for emptying water ballast tank

The recently installed electrical system on the boat was designed to support an automatic Bilge Pump, a Garmin Chart Plotter and a Raymarine Depth Instrument. The main battery system on the boat is maintained and kept fully charged by means of a Solar Panel and a MPPT charge controller.
