We are setting up a new body to organise sail and oar raids in English coastal waters, aiming to provide enjoyable sailing and rowing for suitable boats and crew. We have two organisers, Geoff Probert and George Trevelyan and are seeking sponsorship locally and nationally. We liaise with similar organisations in other European countries. Our immediate objective is to organise a raid in the Solent in the summer of 2010.

Explore the West Solent's open water and its creeks and harbours in company, using sail and oar, camping overnight. All types of open boats welcome, from scows to whalers.
