

## Arrivals 2017

### Hoathwaite Campsite

#### Important Information for Your Stay

Hoathwaite Campsite enjoys a stunning location, but is basic. Please do not expect the same level of facilities and services that you would receive at our other Lake District campsites.

#### Arriving On Site

All bookings for campers, unless otherwise arranged, are allocated to the top field immediately after the cattle grid as you enter the campsite (see map). The bottom field is used only for group reservations made in advance. There is no reception building on site and a warden attends in the morning/afternoon only, so it is down to you to decide on a suitable place to pitch within the given area and set your equipment up accordingly. Parking is on the hard standing area adjacent to the farm buildings at the top end of the site. All caravans and vehicles should remain parked on this area unless otherwise directed by the site warden.

#### Facilities

There are only basic toilet and washing facilities for campers' use. These are located on the area of hard standing on the top field, just to the right of the gate as you come into the camping area. The site has a chemical waste disposal point for **biodegradable** chemicals only. Drinking water is available at various points throughout the site. There is no electricity on site. The nearest shop is located in Coniston – this is a small branch of the Co-op, suitable for a few small essentials (milk, bread etc.) The nearest large supermarket is in Kendal.

#### Fires and Barbeques

Please note that traditional campfires are not allowed on site. Barbeques are permitted provided they are raised above the ground and do not scorch the grass. Coals and ashes must be disposed of sensibly and should not under any circumstances be put in the bin while they are still hot.

#### Rubbish Disposal

Bins for general refuse are located at the top of the campsite. Campers should make the appropriate arrangements to dispose their refuse, leaving the area clean and tidy on departure.

#### Lake Access

Lake users should familiarise themselves with the National Park guidelines prior to arrival on site. The National Trust accepts no responsibility for users who do not keep within these guidelines.

#### Directions

From Coniston, follow the A593 in the direction of Torver. Approximately two miles along this road you will see a left hand turn with large brown sign marked 'Park Coppice'. The turning for Hoathwaite Farm Campsite is the **next turning on the left, roughly one mile further along the road** – look for the green metal railings and a small white 'Campsite Open' sign. The 'Priestly Centre' is also sign posted at the same turn. If you reach Torver village you have gone too far.

## Contact

For any bookings related queries, please call the bookings team on 015394 32733 (Mon-Fri 10am-4pm) or email: [campsite.bookings@nationaltrust.org.uk](mailto:campsite.bookings@nationaltrust.org.uk). If you are experiencing any issues while staying on site, your first point of contact is the Hoathwaite site warden. If the warden is not present, feel free to contact the team at Great Langdale on 015394 37668 (daily 8.00am-7pm).
